Emission/Safety	FCC, CE, BSMI, VCCI

The first & only thumb drive designed for MMCmicro!

## World's smallest high-speed Flash Card Driver

SINGIM introduces Hi-Speed USB 2.0, MMCmicro Card Driver targeted at the rapidly expanding market for new mobile feature phones & video game players with memory card slots. The compact, key-chain like Card Driver is the first & only one on the market, which is designed especially for MMCmicro. It is about the length and width of a thumb and slip easily into any pocket. SG371A Card Driver has one slot for MMCmicro Memory Card. With its rear cap, it provides protection for inner device and memory card from loosing or damaging. Also, with the belt to prevent the USB cap from missing. The flash memory cards can be plugged directly into the reader. No card adapters are required.
